STATE CLEARINGHOUSE

---

# NEWSLETTER

**November 1 through 15, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **November 1 through 15, 2001.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Be sure to have someone check that all lights are turned off in unoccupied area prior to the weekend.

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No cases have been selected for the period of November 1-15, 2001.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# Federal Notices

## Intergovernmental Review Notices (November 1<sup>st</sup> – 15<sup>th</sup>, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**Agency:** United States Army Corps of Engineers  
**Contact:** Kelley Reid  
**Telephone:** (707) 443-0855  
**E-mail:** [Kelley.E.Reid@spd02.usace.army.mil](mailto:Kelley.E.Reid@spd02.usace.army.mil)  
**Address:** Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197  
**Description:** The applicant proposes to breach an unvegetated sandbar with the use of a bulldozer, creating a channel approximately 20 feet wide. Breaching would be conducted between September 1 and February 15 if the water levels at Lake Earl rise above 8.0 feet mean sea level. The purpose of the breach is to prevent flooding of local county roads. The requested permit would be for a 2-year period for the California Department of Fish and Game and the Del Norte County Department of Public Works.

2001112008	Folsom-Auburn Road Widening Project Folsom, City of Folsom--Sacramento, Placer The City of Folsom proposes to widen Folsom-Auburn Road from two lanes to four lanes beginning at Folsom Dam Road and continuing north to approximately 700 feet north of the Placer County line, to the San Juan Water District facility in Placer County. The total project length is approximately 3,960 feet (0.75 miles). South of Folsom Dam Road, Folsom-Auburn road is currently a four-lane roadway. At its intersection with Folsom Dam Road, Folsom-Auburn Road abruptly changes from a four-lane width to a two lane width, creating a northbound "bottleneck effect". The proposed project would extend the four-lane section of Folsom-Auburn Road that begins south of Folsom Dam Road to the project termination point at the San Juan Water District facility in Placer County, where it would then transition back to a rural two-lane roadway. The proposed widening would increase the improved section to four 12-foot-wide vehicle lanes plus six-foot-wide paved shoulders on either side, including a Class II bike lane along the east side of the roadway. The proposed improvements will also include two-foot-wide graded shoulders on each side, and may include paved or planted medians. In addition, a separated bike lane and pedestrian walkway will be constructed along the west side of the roadway. In addition to the road widening, improvements would be made at all intersections within the project area.	<b>NOP</b>	11/30/2001

The Plan identifies a set of control measures to be implemented throughout the San Francisco Bay Area to reduce air pollutant emissions in order to attain the national one-hour ozone standard. The Plan includes stationary source control measures, transportation control measures and a mobile source control measure. The Plan was prepared in response to US Environmental Protection Agency action (66 FR 17379 March 30, 2001 and 66 FR 48340 September 20, 2001).	<b>NOD</b>	11/30/2001
2001082078	Lodge Property Development (Wendy's, Caffino and Car Wash Express) Oakley, City of Oakley--Contra Costa The project site consists of four parcels on a 4.457-acre site, bordered by a vineyard to the north and east, Bridgehead Road to the west, and Main Street (Hwy 4) to the south. The development will occur on 3 of the 4 parcels totaling 1.87 acres. The site is zoned P-1 (Planned Development for commercial development). The General Plan land use designation is CO (Commercial). The project consists of a Wendy's fast food restaurant on a 33,778 square foot parcel (Parcel A), the relocation of Caffino's drive thru coffee shop on a 15,574 square foot parcel (Parcel B), and car wash and lube facility on a 31,897 parcel (Parcel D). Parcel C is not proposed for development at this time.	<b>NOD</b>	
2001119001	Water Course Crossings for Timber Harvest Fish & Game #2 --Placer The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement R2-2001-465 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Richard Frey, representing Siller Brothers, Inc. Installation and removal of two temporary modified Humboldt crossings for use in Timber Harvest.	<b>NOD</b>	11/30/2001
2001118001	Streambed Alteration Agreement Regarding Soil Remediation Activities Within Drainage 5 Project Fish & Game #5 Brea--Orange The Applicant proposes to alter the streambed to conduct soil remediation activities within drainage 5. Soil would be excavated from an area no larger than 4.95 acres, impacting 0.50 acre of stream (including 0.29 acre of riparian habitat). An underground pipe will be installed within the excavated area and connected to an existing storm drain for drainage purposes; the excavated areas will be filled with clean, native soils; the excavated soil will be stockpiled outside of the stream on the southwest portion of the project site. Soil containing wastes that do not meet approved criteria for onsite burial will be stockpiled onsite for no more than	<b>NOE</b>

2001111030	Brand General Plan Amendment; G990027M, ED00-120 San Luis Obispo County Nipomo--San Luis Obispo A request to amend the County's General Plan by: 1.) changing approximately 32 acres from Rural Lands to Residential Suburban (allows up to 32 lots); 2.) changing 40 acres from Rural Lands to Commercial Service (conceptual plans with 16 lots of 2.5 acres; at 30% single-story footprint coverage, about 523,000 sf of structures) with no limitations on allowed CS uses; 3) deleting the Specific Plan requirement; 4.) adding the site to the Nipomo Urban Reserve Line; and 5.) changing the Agriculture and Open Space Element designation from Large-Lot Rural to Urban Lands.	<b>NOP</b>	12/03/2001
2001112009	North of Delta Offstream Storage (CALFED) Water Resources, Department of Sacramento--Sacramento The CALFED ROD specified two actions to be completed before deciding whether to proceed with an offstream storage project north of the Bay-Delta. The first was to create a partnership with local water interests and the second was to complete environmental review and planning documentation for a reservoir with a capacity of up to 1.9 MAF by August 2004. DWR and Reclamation have completed the first of these directives and are working on the second. The following possible alternatives for this program have been identified and will be included in the alternative analysis along with other alternatives developed during the scoping process. The alternatives evaluated in the EIR/S will include consideration of CALFED Stage 1 actions as defined in the ROD. -No Project (Present Condition) -No Action (Future Condition) -Sites Reservoir Alternative -Newville Reservoir Alternative -Other Possible Alternatives	<b>NOP</b>	12/04/2001
2001112014	Long Marine Laboratory Coastal Long Range Development Plan University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project is a Coastal Long Range Development Plan for the Long Marine Laboratory (LML). The project supports the development of a marine science campus to expand and enhance the research and educational capabilities at LML for the next 20 years. The CLRDP addresses 98 acres of land owned by UCSC at the western edge of the City of Santa Cruz. The site currently comprises the Younger Lagoon Natural Reserve (25 acres), the existing LML complex (16 acres), and an area north and east of the existing LML complex (57 acres). The CDRDP program would provide for 250,000 square feet of marine research and teaching facilities, 11,000 square feet of support and ancillary facilities, 30,000 square feet of equipment storage and maintenance facilities, and approximately 100,000 square feet of short-term housing and rental housing.	<b>NOP</b>	12/03/2001

2001118017	Standish Hickey Turnpike Parks and Recreation, Department of --Mendocino The project will consist of building a turnpike along the existing path going from the ranger station to the kiosk and/or maintenance yard to resolve a drainage problem.	<b>NOE</b>	
2001118018	Redwood Middle Comfort Septic System Parks and Recreation, Department of --Mendocino Replace septic tank with new 1200-gallon pre-cast concrete tank and replacement of leach pit.	<b>NOE</b>	
2001118046	Historic Structure Repainting Parks and Recreation, Department of --Monterey Repaint the exteriors of the historic Bunk House and Blacksmith Shop. Work includes washing, scraping, and light sanding in preparation of application of new sealants, primer, and paint to match the original colors.	<b>NOE</b>	
2001118047	Maggio Ranch Acquisition Parks and Recreation, Department of --San Diego Project consists of acquisition of 105 acres known as Maggio Ranch adjacent to park unit.	<b>NOE</b>	
2001118051	Three-year Variance to Tulare County to Collect and Transport Agricultural Used Oil Toxic Substances Control, Department of --Tulare HHWVAR010902 - Variance to Tulare County to conduct an agricultural waste oil collection program. The variance also authorizes an initial one-time collection of up to 550 gallons of waste oil from each qualified Tulare County agricultural business. The collections provide appropriate means of disposing of hazardous waste. The variance is based on the evidence that: 1. Only qualified generators participating in the agricultural oil collection program will be serviced under this variance; 2. The used oil is taken to an authorized facility; and 3. The oil is transported by a registered hazardous waste hauler using modified manifest procedures.	<b>NOE</b>	
2001118052	Three-year Variance to Imperial Valley Waste Management Task Force Toxic Substances Control, Department of --Imperial HHWVAR010805 - Variance to Imperial Valley Waste Management Task Force from Health and Safety Code, Section 25160 requirements. This variance will allow the Imperial Valley Waste Management Task Force to collect non-Resource Conservation Recovery Act (non-RCRA) and RCRA exempt emergency response and abandoned wastes, some that has been previously collected by other public agencies, and transport by registered hauler to the permit-by rule Household Hazardous Waste (HHW) collection facility for further management.	<b>NOE</b>

	northbound SR-55 ramps and the southerly Newport Avenue extension. In addition, the project will require a number of discretionary actions by the City and Agency including right-of-way acquisition; the formation of a utility undergrounding district; and, the possible formation of an assessment district and/or community facilities district. A boundary reorganization is also proposed. The project is within the Pacific Center East Specific Plan Area. The project is consistent with the Pacific Center East Specific Plan and its Circulation Element.		
1999011011	Yosemite Lakes General Plan Amendment Merced County Merced--Merced The proposed Yosemite Lake Estates project has been redefined to include only a General Plan Amendment from Agricultural to Specific Urban Development Plan Study Area for the project site.	<b>NOP</b>	12/04/2001
2000111117	City Center Redevelopment Project Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The purpose of the proposed redevelopment project will be to revitalize the area through new commercial, industrial and residential development and the rehabilitation/reuse of existing development, maintain and expand residential neighborhoods and preserve/reuse cultural resources, and to eliminate various conditions of blight that have been identified within the proposed project area. Redevelopment actions to be taken could include land assembly, technical assistance, financial assistance, owner participation agreements, disposition and development agreements as well as funding specific improvements to infrastructure and community services. Based on current assessor's parcel data and field surveys conducted by the CRA, these types of land resources are prevalent within the proposed project area. Use of the these land resources could result in the creation of between 2,010,000 square feet and 6,700,000 square feet of new commercial and industrial space within the project area as well as the creation of between 2,100 and 6,900 new residential dwelling units. Redevelopment actions could also include the rehabilitation of existing commercial and industrial building, particularly in the historic core area of downtown, many of which have historic significance and several of which could be converted to residential use.	<b>NOP</b>	12/05/2001
2001111045	Central Industrial Redevelopment Project Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The purpose of the proposed redevelopment project will be to revitalize the area through new commercial, industrial and residential development and the rehabilitation/reuse of existing development, maintain and expand residential neighborhoods and preserve/reuse cultural resorces, and to eliminate various conditions of blight that have been identified within the proposed project area. Redevelopment actions to be taken could include land assembly, technical assistance, financial assistance, owner participation agreements, disposition and development agreements as well as funding specific improvements to infrastructure and community services.	<b>NOP</b>	12/05/2001

2001111046	<p>Demolition, Reconstruction and Expansion of the Mead Elementary School San Diego Unified School District San Diego--San Diego</p> <p>Acquisition of up to 18 surrounding residential lots is proposed to accommodate reconstruction of the Mead Elementary School. The proposed acquisition would affect approximately 14 single-family and 8 multi-family dwelling units on 2.6 acres. The proposed project includes demolition and/or removal of all existing school and residential structures. The school will be reconstructed with approximately 38,000 square feet of permanent one- and two-story classrooms and support facilities. The facility would continue to serve 350 students, grades K-5 and a Child Development Center for approximately 60 preschoolers. The faculty will remain at 35 full time employees. The expansion will allow additional playground and playfield areas. While an increase in students and staff is not anticipated at the reconstructed school facilities, based on the adopted Community Land Use Plan and District policies, the site would be able to accommodate an additional 100 students and 5 faculty in relocatable classrooms if unforeseen future circumstances warrant.</p>	<b>NOP</b>	12/04/2001
2001111049	<p>Patterson Academy General Plan Amendment; G990020M, ED00-122 San Luis Obispo County Nipomo--San Luis Obispo</p> <p>A request to amend the County's general plan by (1) changing a maximum of 34.5 acres of a 100 acre site from Agriculture (AG) to Rural Lands (RL); (2) including a use limitation for the changed RL portion for school use (pre- to secondary school) only; (3) changing the Agriculture and Open Space Element designation from Agriculture to Large Lot Rural; and (4) dis-establishing the agriculture preserve contract. This request is to allow the applicant to construct a private High School (up to 325 students, with dormitories for 75 students), sports fields, licensed child development center and day camp (up to 200 children). The remainder of the site will remain in Agriculture and is required to be agriculturally intensified in conjunction with the school.</p>	<b>NOP</b>	12/04/2001

2001118044	<p>Streambed Alteration Agreement (R5-2001-0207) to Perform Geotechnical Survey Activities (Borings) with the Arroyo Trabuco Fish &amp; Game #5 --Orange</p> <p>The operator proposes to alter the stream to perform geotechnical survey activities within the Arroyo Trabuco floodplain underneath the SR-241 bridge. These surveys will provide information which will aid in the design for a bridge widening project over the stream. A separate Streambed Alteration Agreement will need to be obtained for the ultimate widening project. Geotechnical boring samples will be taken at four locations. Each boring will be 8 inches in diameter by 60-80 feet in depth. At each boring site, a maximum 40-foot circumference work area shall be established to provide for equipment turnaround, temporary parking of vehicles, and temporary stockpiling of drill materials. To gain access to the boring sites, two vehicles will be driven over a previously graded unpaved dirt road, which has since become overgrown with native vegetation. To gain access to one location, a dozer will cut an access ramp through the northern and southern banks of the existing creek, which has a height of approximately 2 to 3 feet, by back hoeing the bank away from the stream. After the project is completed, the ramps will be removed and recontoured to pre-project conditions. Except where authorized, vegetation shall be driven over or hand cut rather than graded. The operator shall not impact more than 3000 feet squared (900 feet squared for constructing ramps and the remaining 2100 feet squared for driving work vehicles over revegetated access road), all of which are temporary impacts. The operator shall restore all stripped or exposed areas with vegetation native to the area.</p>	<b>NOE</b>

2001118049	<p>Veterans Home of California, Yountville Cemetery Renovation Project Veterans Affairs, Department of Yountville--Napa</p> <p>The proposed project consists of renovation of the Veterans Cemetery at the Veterans Home of California, Yountville. The project is needed because the cemetery requires repairs to improve use, appearance and maintenance of grounds, and provide for ADA compliance and accessibility to veteran residents and their families. Many of the headstones are tilted or leaning, and the small plaza upon which the Monument to the Unknown Soldier (Monument) is built is deteriorating. In addition, the asphalt overlay on the small access road to the cemetery is breaking down and in need of rehabilitation, and some of the fencing has collapsed and must be replaced. The existing Veterans Cemetery is 10.27 acres in size and contains approximately 4711 graves. The proposed project would include the following: realign approximately 2000 headstones as needed; clean any stained headstones; replace damaged or collapsed fencing; repave existing cemetery access road as needed; backfill and compact soil at all abrupt pavement edges and road shoulders; renovate concrete plaza at the Monument; re-grade slope of the approach to the Monument and install accessible walks in compliance with ADA; pave parking area and provide ADA accessible parking; replace a maintenance building and small metal shed with 885 S.F. Visitor Orientation and Maintenance Building, which will have two ADA accessible unisex bathrooms; irrigation improvements; extend existing water, power, communications, and sewer utility lines; planting irrigation measures to renovate the grounds. The Veterans Home of California, Yountville is listed in the National Register of Historic Places, and the State Historic, and the State Historic Preservation Officer (SHPO) has been consulted about the proposed project in compliance with Section 5024.5 of the Public Resources Code. Based on the site visit and consultation, the SHPO has provided the Lead Agency with written concurrence that the project would not represent a significant effect on historical resources. The lead agency shall ensure conformance to design standards set by the Secretary of the Interior pursuant to the National Historic Preservation Act for any modifications as a result of this proposed project. The project shall not relocate or disturb any grave in the Veterans Cemetery, and there shall be little or no tree removal. The project is designed to accommodate the existing needs of Yountville Veterans Home and constitutes a negligible expansion of use.</p>	NOE	
2001118050	<p>2nd District Court of Appeals Renovation Judicial Council of California Los Angeles, City of--Los Angeles</p> <p>The proposed project consists of renovating 4,900 square foot existing office space on the second floor of the Ronald Reagan State Office Building for use by the Second District Court of Appeals. The project would make improvements to the HVAC, electrical, and security systems, and install new doors, walls, and ceilings. The project would demolish some selected existing walls. The project is needed to accommodate space needs for existing staff, with negligible expansion of current use.</p>	NOE

2001112031	<p>Lakeside Trail Phase IIA - Truckee River Outlet Crossing Tahoe City Public Utility District --Placer</p> <p>The total length of the trail crossings and connections is approximately 285 feet. Of this length, about 155 feet would be located across the Truckee River Dam and 130 feet would be located on State of California property. The portion of the trail constructed on State Parks property at the southern end of the dam, would have vegetated shoulders on each side. Native revegetation and bank stabilization would be placed along the lakesides of this property in order to stabilize the bank and discourage pedestrian access. Trail design has been coordinated and would continue to be coordinated with the State Parks Master Plan for this area (i.e., demolition of existing Bridgetender restaurant and construction of a picnic area). Portions of the area are included in the State Parks improvements that may be constructed at the same time of the trail. The items to be constructed by the State Parks include a river overlook with benches, bicycle parking, interpretive signs, and stone seat walls. The trail would then extend across Lake Tahoe, connecting to the east side of the Truckee River Dam. The trail would be 12 feet wide, with a 42" railing on the easterly side to the project trail users. Foot lighting is proposed to provide for safety without adding additional glare to the vicinity. The trail would have removable deck panels for exterior access to the dam gates, and would include a debris catching device to prevent materials from entering into the dam mechanisms. The existing utilities located inside the dam would be placed underneath the bike trail. The trail would be supported by black steel pilings.</p>	<b>NOP</b>	12/06/2001

	proposed which will allow continued and uninterrupted operation of the HOB venue during construction. The HOB restaurant/club venue is an existing use and is not a part of the proposed project.		
1997021038	Benitoite Gem Mine Expansion San Benito County Coalinga--San Benito To expand existing gem mine from 4 to 11.88 acres and to modify existing reclamation plan.	<b>Neg</b>	12/07/2001
2000081065	Santiago Canyon College-Soccer Field Lighting Rancho Santiago Community College District Orange--Orange Installation of ten 70 foot light poles and security lighting at two existing soccer fields at the Rancho Santiago Community College to allow evening and weekend public use of the soccer fields. In addition seventeen 30-foot light poles would be installed for the purposes of security lighting in an existing parking lot and along an existing access road on the College campus.	<b>Neg</b>	12/07/2001
2001111067	De Portola Road Improvements Riverside County Transportation & Land Management Agency Temecula--Riverside Remove and replace existing pavement on 3.8 miles of De Portola Road in two segments: 1) from Anza Road to Pauba Road, and 2) from Glen Oaks Road to 0.2 miles southerly of Monte De Oro. No widening for additional lanes is proposed. Drainage improvements consists of upgrading culverts at two locations and installing new culverts at two locations. The new culverts installation require the road to be raised by approximately 3 feet resulting in a new 6 foot embankments. The new embankments will be contained within existing shoulder. To reduce pavement damage caused by high ground water, geotextile fabric will be installed under the subgrade from Glen Oaks Road 400 feet southerly.	<b>Neg</b>	12/07/2001
2001111069	Betty Drive Avenue 312 Realignment and Improvement Project Tulare County --Tulare This project is to mitigate existing impacts of non-local and truck traffic currently traveling through existing residential development within the unincorporated community of Goshen, creating pedestrian and vehicular safety issues, dust generation, noise, and diesel fumes. By re-routing traffic onto a designated truck route passing through the northern extremity of the community, overused roadways can return to the level of service for which they were designed. This project has many components and will be constructed in phases (Attachment "A"). All phases will incorporate "Compensation and Avoidance" measures as required by the United States Dept. of the Interior, Fish and Wildlife Service for threatened, protected, and endangered species in the project area, specifically the San Joaquin kit fox. The California Department of Fish and Game's recommendation to acknowledge the occurrence of any active hawk nest by consultation with their Agency (on a case by case basis) will also be incorporated into the project. The project includes construction of box culverts for the safe passage of foraging kit fox and replacement of habitat and foraging area lost due to construction (1:1 acre ratio). Employee education programs will also be conducted to alert on-site	<b>Neg</b>	12/07/2001

2001111077	RMC Pacific Materials - Construction Materials Park Redwood City, Port of Redwood City--San Mateo RMC Pacific Materials proposes to lease 9.2 acres of idle land from the Port of Redwood City to develop and operate a Construction Materials Park. The project will handle two imports: dredged sand imported by barge and concrete rubble imported by truck. Sand and concrete products will be trucked to construction sites in the Bay area. As part of the project, similar sand and concrete operations at another RMC site at the Port will be relocated to the project site. The project includes a new mooring facility at one of two locations with dredging requirements of 28,000 cubic yards or 57,000 cubic yards. No other new permanent buildings or facilities will be constructed.	<b>Neg</b>	12/07/2001
2001112033	City of East Palo Alto 2001-2006 Housing Element East Palo Alto, City of East Palo Alto--San Mateo This update covers the 2001-2006 Housing Element period, consistent with the update cycle for jurisdictions within the Association of Bay Area Governments (ABAG) region.	<b>Neg</b>	12/07/2001

	the new columns, the existing columns, fitted with corrugated metal sleeves, will be retrofitted by installing a steel sleeve around the existing outfall structures within the project footprint area will be relocated outside of the new bridge edge. Two are on the north bank, west of the bridge, one is on the south bank east of the bridge, and one is on the southwest corner of the existing structure.		
2000042087	Tri-Valley 2002 Capacity Increase Project Public Utilities Commission Pleasanton, Livermore, Dublin--Alameda, Contra Costa The project includes 230 kV electric transmission lines in Pleasanton, Livermore, Dublin, and unincorporated county areas, upgrades to the Vineyard Substation (Pleasanton), and new substations in Contra Costa County (north of Dublin) and in North Livermore.	<b>NOD</b>	
2001011098	Caltrans District 7 Headquarters Building Replacement Project Caltrans #7 --Los Angeles The proposed project consists of the development of a new Caltrans District 7 headquarters building containing approximately 716,200 gross square feet of office space and parking for as many as 1,142 vehicles. The new headquarters building would be located on the block bounded by 1st, Los Angeles 2nd, and Main Streets and would accommodate an estimated 1,837 Caltrans employees and 564 City of Los Angeles Department of Transportation employees. The north end of the project site is occupied by several one and two-story commercial buildings and the Latino Museum of History, Art, and Culture, which has been closed for a number of months. The remaining two-thirds of the block is occupied by an existing Caltrans employee parking lot. St. Vibiana's Cathedral is located south of the project site and City Hall is located to the northwest. To execute the proposed project, the City of Los Angeles and State of California would have to reach an agreement upon a land exchange whereby the City would acquire the privately owned parcels along 1st Street on the block that encompasses the project site and exchange those properties for the existing Caltrans headquarters building property. The City is also proposing to acquire the privately owned properties on the block that contains the existing Caltrans headquarters building as part of the proposed project. These properties are located on the south side of 1st Street, between Spring and Main Streets.	<b>NOD</b>	
2001091138	Release of 2001 Castaic Creek Flood Flows to Castaic Lake Water Agency Newhall County Water District --Los Angeles The California Department of Water Resources (Department) proposes to amend the 1978 Conservation Agreement (the Agreement) it has with United Conservation District, Newhall Land and Farming Company, Newhall County Water District, and the County of Los Angeles, collectively the Downstream Users, to allow the transfer of 8,786 acre-feet of the 2001 Castaic Creek flood flows (storm waters) to Castaic Lake Water Agency (CLWA). The remaining portion of 2001 Castaic Creek flood flows, 1,200 acre-feet, will be retained by the Department to support recreation at Castaic Lagoon. The Downstream Users have assigned the 2001 Castaic Creek flood flows to CLWA without expectation of repayment or compensation. CLWA will use the water to meet its residential and municipal demands for the 2001 water year.	<b>NOD</b>

2001092100	<p>Petaluma Community School Sonoma County Petaluma--Sonoma</p> <p>The Sonoma County Office of Education proposes to develop a community school on a 1.94 acre site located at 1365 Industrial Avenue, Petaluma. The site is currently in private ownership and it is the intention of SCOE to purchase the property. The Petaluma Community School will serve students at the high school grade level. Students are directed to a community school for a variety of personal reasons. The proposed new facility will consist of two classrooms and one multipurpose building. The buildings will be manufactured prototype structures, readily approved by the Department of the State Architect. The facility will include approximately 12 parking spaces and an outdoor, paved basketball court. Vehicular access to the site will be from Industrial Avenue. There will be no school bus service provided to the project site, however, Golden Gate Transit and Sonoma County Transit busses stop at the intersection of Industrial and Petaluma Boulevard North. It is expected that this community school will serve approximately 20 students per classroom, for a total of 40 students. There will typically be about 2 to 3 staff members on-site at any time. The school will generally operate on a year-round basis, and virtually all programs will occur during daytime hours, although it is possible that occasional nighttime use of the facility could occur.</p>	<b>NOD</b>	
2001119009	<p>Streambed Alteration Agreement R3-2001-0747 Forestry and Fire Protection, Department of --San Mateo</p> <p>The project includes installation and subsequent removal of a Spittler-type temporary crossing in a Class II stream at location X1 identified in the approved Timber Harvest Plan. The proposed crossing is intended to provide access to a portion of the harvest area for THP 1-01-167 SMO. Two or more logs approximately 15 to 20 feet long will be placed in the channel over a layer of straw. A flexible conduit at least four inches in diameter will be placed below and between the logs to conduct any water that may be present. A layer of straw will be placed on top of the logs, and then covered by a layer of soil. The completed crossing will be used for log skidding during harvesting operations. This crossing is temporary and will be used only during the summer and/or early fall of 2002. Following completion of harvesting operations, or prior to October 15, 2002, whichever comes first, all material placed in the stream channel will be removed and the stream channel and banks restored to original grade. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement R3-2001-0747, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Roy Webster, Webster &amp; Associates.</p>	<b>NOD</b>

2001118109	<p>Butte Groundwater Monitoring Network-Monitoring Well Installation Water Resources, Department of --Butte</p> <p>The proposed project will involve the drilling of one ten-inch diameter, 200 foot deep monitoring well. The well will be drilled using a large truck-mounted rotary drilling rig equipped with a mud pump. Drilling will begin in either late November or December during daylight hours only. Drilling and reaming of the well will increase noise levels for approximately four hours. All drilling and well development will be accomplished during a two to three day period. Additional support vehicles, including a water tender, front end loader, pipe truck and pickup trucks will be parked on-site. The drilling rig and associated equipment will occupy an area of approximately 100 feet by 50 feet. Access for these vehicles will be directly off the adjacent gravel roads. No improvements for site access will be required. With landowner's permission, all drill wastes (rock cuttings and inert bentonite clay) produced during drilling will be covered over and left on-site upon well completion. The surface completion will consist of a 24-inch diameter standpipe structure placed on a three foot square concrete pad and protected with four steel crash posts.</p>	NOE	
2001118110	<p>Lonoak Road Bridge Replacement Fish &amp; Game #3 --Monterey</p> <p>The project consists is replacing the existing bridge over Lewis Creek as part of the Federal Highway Bridge Rehabilitation and Replacement Program. Issuance of a Streambed Alteration Agreement Number R3-2001-0737 pursuant to Fish and Game Code Section 1601.</p>	NOE	
2001118111	<p>New Science Building Project No. 02-02 Chaffey Community College Rancho Cucamonga--San Bernardino</p> <p>The proposed project would add about 26,000 square feet of new building area adjacent to the existing Life Science Building in parking lot no. 13. During project construction classes will be conducted as usual and parking will be relocated to adjacent lots. The facility would support academic functions in chemistry, anthropology, anatomy, biology, botany, zoology and physiology. Faculty offices and meeting spaces are included in the project as well as improvements to the accessibility of the existing structures.</p>	NOE

2001118114	Dobbins Forest Fire Station - Residence Removal Forestry and Fire Protection, Department of --Placer The proposed project entails the demolition of a residence/office building located on the Dobbins Forest Fire Station compound. The 25' by 40' building was originally constructed by the CCC in 1935 as barracks, was remodeled circa 1966 into a "captains residence", and in the late 1980s converted into office space for the local battalion chief and forester. The building is no longer used for any other purpose and is in disrepair. It contains dry rot and insects, the basement fills with water each winter and the heating and air conditioning equipment needs to be replaced.	NOE	
2001118115	Entrance Sign Parks and Recreation, Department of --Mendocino Install a single past warning sign at the entrance to the park.	NOE	
2001118116	Map Panels Parks and Recreation, Department of --Mendocino Install 4 maps panels at trail junctions and the visitor center. Each panel will be installed on two 4x4 posts.	NOE	
2001118117	Parking Lot Signs Parks and Recreation, Department of --Mendocino Install a single post sign at the entrance to the Pygmy Forest trailhead parking lot.	NOE	
2001118118	Reroof/Repair Equipment Shed and Horse Barn Parks and Recreation, Department of --Santa Cruz Repair and install new roofing on historic Horse Barn and Equipment Shed at Wilder Ranch State Park. Add interior structural supports at Horse Barn to stabilize roof framing.	NOE	
2001118119	California State Park System Plan Parks and Recreation, Department of -- Evaluate programs and policy considerations of the California State Park System to determine the most favorable directions for future actions and the suitability and feasibility of potential programs and policies. The resulting document will serve as a guideline for decisions regarding program development and implementation over the next ten years, but does not dictate or restrict future activities.	NOE	
2001118120	Pardee House Tentant Improvements Santa Clarita, City of Santa Clarita--Los Angeles The project proposes to rehabilitate the interior of the Pardee House at the William S. Hart Park. The tenant improvements include repair to the plumbing, electrical, drywall and the installation of alarms.	NOE

2001111087	CUP 99-045 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Conditional Use Permit to authorize the development of a paint ball facility within the flood plain of the Little Tujunga Wash/Little Tujunga Canyon.	<b>Neg</b>	12/12/2001
2001111088	Crystal Cove State Park El Morro Conversion to Campground and Day Use Parks and Recreation, Department of Laguna Beach--Orange The project proposes to convert an existing 294 unit mobile home park to a public campground and day use area with associated amenities including picnic sites, interpretive areas, building lifeguard facilities and restrooms while restoring the creek to a more natural channel. Project implementation will require adding sewer and other utilities.	<b>Neg</b>	12/12/2001
2001111089	North Campus Academic/Administrative Complex and Throwing Field Relocation University of California, San Diego La Jolla--San Diego The proposed project entails the construction of an academic/administrative complex located on a 1.7 acre site at the corner of Northpoint Driveway and Northpoint Lane in the northwest UCSD campus, and the relocation of the discus/hammer throwing field that currently occupies the site. The field would be relocated approximately 200 feet to the northeast, displacing an existing cul-de-sac and approximately 23 parking spaces on Northpoint Lane. The academic/administrative complex consists of up to 28,000 gross square feet (gsf) of temporary building space to accommodate University staff, researchers, faculty and others who are awaiting completion of permanent facilities. This building space would be accommodated in one-story trailers, painted and skirted in accordance with campus policy. Landscape enhancements at the site perimeter are part of the project. The relocation of the existing throwing field would require removal/relocation of the existing cul-de-sac to the south and relocation of the existing bike path to the east of the proposed project.	<b>Neg</b>	12/12/2001
2001111090	CUP 01-030 Los Angeles County Department of Regional Planning Malibu--Los Angeles The proposed project will establish a two-story 11,260 square foot middle school that will operate in conjunction with an existing elementary school establish under CUP 1922. The proposed project will accommodate approximately eighty students, thirteen staff members, and provide 25 parking spaces. Design features of the school include eight classrooms, a library/multi-media room, and a science lab. Instructional hours for students will be from 7:00 a.m. - 2:30 p.m., Monday through Friday, while staff hours may extend until 4:30 p.m..	<b>Neg</b>	12/12/2001

2001111097	San Vicente Oxygenation Project San Diego, City of --San Diego The oxygenation system would require construction of a liquid oxygen storage facility adjacent to the public parking area northwest of the dam. The facility would consist of the following components: two 9,000 gallon liquid oxygen storage tanks; vaporizers to convert the liquid oxygen to a gaseous state; a two- to six-inch diameter delivery pipeline to transfer the gaseous oxygen from the storage facility to the reservoir; and a submerged pipe diffuser system to inject the gaseous oxygen into the hypolimnion of the reservoir. The oxygenation delivery system would have a maximum oxygen delivery capacity of 39,700 pounds per day. The tank and vaporizers would require a 20-foot by 8-foot reinforced concrete pad and chain link fence with bollard protection. The two- to six-inch diameter gaseous oxygen delivery pipeline would be placed approximately 18 to 30 inches below the ground surface, primarily under an existing paved access road. A small portion of the pipeline (approximately 50 feet) would be outside the road in a disturbed area. The pipeline would connect to a pipe diffuser system that would extend into the lake and then be submerged. Adjacent to the lake, at the end of the paved access road, a six by six square foot vault would house the shutoff valve for the pipeline. The vault would be a flat surface at ground level similar to an existing vault nearby.	<b>Neg</b>	12/12/2001

1983022301	<p>Monte Cerno Residential Subdivision San Diego County --San Diego</p> <p>The project is a Specific Plan that proposes to permit the construction of 156 single family detached dwelling units on one acre minimum lots. This residential development is located on a series of raised ridges north of the City of Escondido and east of Interstate 15 in the North County Metropolitan Planning Area of north central San Diego County. The houses, pads, and associated roads are distributed along the tops of ridges. The lots are clustered, leaving 563 acres of the 694-acre site for ongoing use as an avocado orchard (173 acres) and as dedicated biological open space (236.7 acres). The avocado orchard will be maintained in a series of agricultural lots that will be professionally maintained. The subdivision will be served by 4.1 miles of private roads, with the main gated entry located at Mountain Meadow Road. Grading will include a total of 600,000 cubic yards of cut and fill, with maximum cut and fill slopes of 35 and 45 feet respectively. Potential visual impacts will be mitigated through implementation of a landscape plan. The project will be built in a series of seven phases. Sewer and water services will be provided by the Valley Center Municipal Water District. Fire protection will be provided by the Deer Springs Fire Protection District.</p>	<b>NOD</b>	
1992031080	<p>California Museum of Science and Industry Exposition Park Plan California Science Center --Los Angeles</p> <p>In 1993, the California Museum of Science and Industry (now known as the California Science Center) approved the California Museum of Science and Industry/Exposition Park Master Plan and certified the Program EIR for the Master Plan. The proposed project would consist of the construction of a new wing on the west side of the existing California Science Center building. The 1993 Program EIR evaluated the environmental impacts of proposed new and expanded museum facilities. As described in the 1993 Program EIR, the California Museum of Science and Industry (now known as the California Science Center) facilities would be constructed in phases. Phase I, involving construction of the central segment, would contain approximately 225,000 gross square feet of space. (Phase I was completed in 1998.) Construction of the east and west wings (Phases II and III), which would contain approximately 375,000 gross square feet of space, would occur subsequently to completion of the central segment. An Addendum to the 1993 Program EIR has been prepared, which is attached to this Notice of Determination. The addendum addresses the environmental consequences of changes to the design proposed in the 1993 Program EIR. The addendum has determined that the proposed changes are minor and would result in no new significant impacts to the environment not previously addressed in the Program EIR.</p>	<b>NOD</b>

<b><u>Documents Received on Tuesday, November 13, 2001</u></b>			
2001118129	Interchangeable Emission Reduction Credit Banking Application Number 1820 Bay Area Air Quality Management District Martinez--Contra Costa This application is to bank Interchangeable Emission Reduction Credits (IERCs) generated by emission reductions that occurred at Carbon Monoxide (CO) Boilers No. 1, 2 and 3 at the Martinez Refining Company (MRC). These IERCs are approved for banking in accordance with BAAQMD Regulation 2, Rule 9, Interchangeable Emission Reduction Credits. These IERCs may only be used in accordance with restrictions set forth in Regulation 2, Rule 9.	<b>NOE</b>	
2001118130	Inyo County Sheriff Communications System - Submittal for Professional Services Agreement Inyo County Planning Department --Inyo The project is an upgrade of the Inyo County Sheriff's Communication System at already established sites in Inyo County (unincorporated). Project consists of the replacement of communications equipment in Transmit/Receiving sites with no physical alteration to the buildings that house these sites.	<b>NOE</b>	
2001118132	Curlin Property Slide Repair Fish & Game #5 Malibu--Los Angeles Repair of slide and revegetation of seep area.	<b>NOE</b>	
2001118133	Mer-152, SJ-4 Bridge Maintenance Caltrans #10 Los Banos, Stockton--Merced, San Joaquin The project is to replace three deteriorating debris wall sections of the Middle River Bridge (Bridge No. 29-0049) and to upgrade the existing piers of the San Luis Forebay Bridge (Bridge No. 39-0145L/R) to prevent deterioration of the piers.	<b>NOE</b>	
2001118134	Reedley College Learning Resources Center Addition California State Center Community College District Reedley--Fresno The Reedley College Library, constructed in 1972, is undersized for the current campus enrollment. The project involves constructing a new wing on the library, which would increase the assignable square feet (ASF) of the facility from 15,011 ASF to 24,179 ASF.	<b>NOE</b>	
2001118135	Energy Conservation Measures Atascadero State Hospital Facility Mental Health, Department of Atascadero--San Luis Obispo As part of the energy conservation measures at the Atascadero State Hospital Facility, this project would replace the current cooling, heating and ventilation systems with a new high pressure steam absorption chiller, cooling tower, pumps, motors, piping, chiller room, electric power service and related controls. The project will provide stack economizer to steam boilers to enhance gas savings. The project will install a system to more effectively control scale and biological deposits to the cooling towers and chillers, which will result in less water usage and repetitive chemical costs. Engineered venturi nozzles will be installed to reduce the amount of live steam lost in the present system and reduce annual boiler & gas expenditures for the facility. The project is needed to improve the	<b>NOE</b>

<b><u>Documents Received on Tuesday, November 13, 2001</u></b>			
	delivery of heating and cooling in the facility, reduce present energy losses, and conserve energy and utilize it more efficiently. The project would accommodate existing facility staff and patients, and would result in substantial reduction in maintenance costs for the facility.		
2001118136	Approval of Request to Change Three Mountain Power Project (99-AFC-2C) Condition of Certification AQ-29 to Change the Location of the Morning Station Energy Commission --Shasta Change a condition of certification to allow a change in the location of the ozone/PM10 monitoring station. The new site selected will meet all of the requirements of the Three Mountain Power Plant Decision (99-AFC-2), and will be approved by Energy Commission staff and the Shasta County Air Quality Management District.	<b>NOE</b>	
2001118137	Approval for Request to Modify Huntington Beach Generating Station Retool Project Energy Commission Huntington Beach--Orange Change conditions of certification to require AES to cease operating Unit 5, or retrofit it with proper emission controls, by September 30, 2002, and only require source testing of Unit 5 by February 1, 2002 if AES intends to operate the unit after September 30, 2002.	<b>NOE</b>	
2001118138	Elimination of 16 Hours-Per-Day Limit on Fossil Fuel Electrical Generation at SEGS VIII and IX Facilities (88-AFC-1C & 89-AFC-1C) Energy Commission Barstow--San Bernardino These changes eliminate language that indicates that the daily hours of operation using natural gas-fired electrical generating equipment are limited to a maximum of 16 hours-per-day. The projects' hourly and daily emission limits will remain in effect. The maximum hours of operation of natural gas-fired generation equipment will be limited by the daily emission limits.	<b>NOE</b>	
2001118139	HHWVAR970704R2-Three Year Variance Renewal to the City of San Francisco to Conduct Door-to-Door Household Hazardous Waste (HHW) Collections Toxic Substances Control, Department of San Francisco--San Francisco Variance to the City of San Francisco from hazardous waste facility permit requirements. The three-year variance authorizes San Francisco to conduct door-to-door (residential) collections of HHW. The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that: 1.) The door-to-door collections will meet strict standards and wastes are delivered to an authorized HHW collection facility; 2.) Only personnel trained in hazardous waste management shall handle or package hazardous waste; and 3.) All collected wastes will be transported by a registered hazardous waste hauler to a HHW collection facility for further management.	<b>NOE</b>

2001118159	Catellus Urban Development Corporation Manifest Variance Toxic Substances Control, Department of San Francisco--San Francisco Catellus Urban Development Corporation (Catellus) has received a variance under California Health and Safety Code, Section 25143 from the hazardous waste manifesting requirements of California Health and Safety Code, Section 25160. The variance allows Catellus to use a Bill of Lading in lieu of a manifest to transport lead-contaminated soil (Variance Soil) generated from excavation activities associated with the redevelopment of an area known as Mission Bay Project Area, approximately a 300 acre site. The Variance will be excavated from one part of the Mission Bay Project Area, loaded into trucks, transported up to two miles via public streets located within and in the vicinity of the Project Area, and placed within another part of the Project Area. In accordance with the Project Area's approved Risk Management Plan (RMP), the Variance Soil will be used for site grading, backfill, other development purposes, or staged prior to such activities, or prior to offsite disposal. Registered hazardous waste transporters will be used when Variance Soil is transported along public streets from one part of the Project Area to another.	<b>NOE</b>

<b><u>Documents Received on Thursday, November 15, 2001</u></b>			
2001042106	<p>949-961 Market Street San Francisco Planning Department San Francisco--San Francisco</p> <p>The project would consist of demolition of two existing buildings, including a vacant 40-foot high former theater building and a vacant 66-foot high former commercial building at 949-961 Market Street and construction of a new 12-story-plus-basement, 119-foot tall residential condominium building with 140 dwelling units and 4,250 square feet of retail space. Total new construction would be about 241,200 square feet. The nearly 23,400 square-foot project site is located in the middle of the block on the south side of Market Street between Fifth and Sixth Streets, and is within the C-3-G (Downtown General Commercial) and 120-X Height and Bulk Districts. The building proposed for demolition is designated as a Category V (Unrated) building in Article 11 of the Planning Code. The proposed project would require authorization by the Planning Commission pursuant to Planning Code Section 309, Permit Review in C-3 Districts and Conditional Use authorization.</p>	<b>EIR</b>	12/31/2001

	Streambed Alteration Agreement Number R3-2001-0817 pursuant to Fish and Game Code Section 1603.		
2001118179	Iglesia Ni Christo (Church of Christ) Parking Lot Fish & Game #3 Fremont--Alameda The applicant proposes to improve the parking lot of the Iglesia Ni Christo (Church) located at 39700 Logan Drive, Fremont, Alameda County, by paving the entire lot and providing a drainage system. The system will divert most storm water via constructed valley gutter to a catch basin and then discharge into the Alameda County Flood Control Channel (Line C).	<b>NOE</b>	
2001118180	Seismic Retrofit of Russian River Bridge on Moscow Road Fish & Game #3 --Sonoma Seismic retrofit of the Russian River bridge on Moscow Road at Duncans Mills, Sonoma County. Issuance of a Streambed Alteration Agreement Number R3-2001-0220 pursuant to Fish and Game Code Section 1601.	<b>NOE</b>	
2001118181	Canyon Heights Tank Access Road Improvements Fish & Game #3 Fremont--Alameda The proposed project site is located on an unnamed tributary to Alameda creek at 37908 Canyon Heights Drive, in the City of Fremont, Alameda County, and involves the construction of new storm drainage facilities and improvement of the water tank access road. The proposed project consists of paving an existing unpaved dirt access road (approximately 600 linear feet by 11 feet) to facilitate year-round access and to provide associated drainage improvements to mitigate erosion and overland flow, thereby preventing runoff from flooding adjacent property. The drainage facilities will capture runoff and will be routed to a 100 foot long, 18 inch diameter corrugated steel pipe. The pipe will terminate with an T energy dissipater and a 5'-0" x 11'-3" x 18" rip-rap splash apron, installed below the ordinary high-water mark. Clearing, pipe installation, and non-grouted rip-rap placement will be accomplished manually. Revegetation of the creek embankment is expected to occur naturally. Issuance of a Streambed Alteration Agreement Number R3-2001-0440 pursuant to Fish and Game Code Section 1601.	<b>NOE</b>	
2001118182	Issuance of License Agreement for the California Institute of Technology to Property Along the Colorado River Aqueduct Metropolitan Water District of Southern California --San Bernardino The Metropolitan Water District of Southern California (Metropolitan) proposes to grant the California Institute of Technology license to enter upon Metropolitan property for the purpose of installing and maintaining a seismic sensing equipment vault and adjunct instruments that will aid the study of active faulting and earthquake hazards in Southern California.	<b>NOE</b>

<b><u>Documents Received on Thursday, November 15, 2001</u></b>			
2001118183	Raw Water Discharge and Facility Inspection and Maintenance of the Distribution System Metropolitan Water District of Southern California --Riverside Metropolitan Water District of Southern California (Metropolitan) proposes to discharge raw water at 14 locations in Metropolitan's Eastern Distribution System in western Riverside County. This will allow for inspection and maintenance activities inside the structures. The system will be drained at a maximum of 5 cubic feet per second to prevent impacts to vegetation and drainages. No excavation or vegetation clearing will occur, and no new access routes will be required. No significant adverse impacts will result from the proposed discharge.	<b>NOE</b>	
2001118184	Issuance of an Entry Permit for the KB Home, Inc. of Greater Los Angeles to Property Along the Colorado River Aqueduct, Perris Valley Siphon Metropolitan Water District of Southern California Perris--Riverside Metropolitan proposes the issuance of an entry permit for the KB Home, Inc. of Greater Los Angeles to property along the Colorado River Aqueduct, Perris Valley Siphon. The purpose of the Entry Permit is to allow access for the widening of Evans Road.	<b>NOE</b>	
2001118185	Removal and Replacement of Culvert Fish & Game #2 --El Dorado Remove and replace culvert.	<b>NOE</b>	
2001118187	Bank Protection Fish & Game #2 Paradise--Butte Placement of rip rap bank protection.	<b>NOE</b>	
2001118188	Streambed Alteration Agreement Concerning San Mateo Creek Fish & Game #5 --San Diego The proposed project would alter the streambed to allow repair of the Interstate 5 bridges that cross the San Mateo Creek. Erosion has resulted in exposure of the footings at three of the four piers; additional erosion could result in failure of the bridges. The proposed project would stabilize the bridge piers so the structures can withstand additional scour. The project includes: installation of 44 piles around each of the three piers (piers #2, 3 & 4); the new piles will be tied into the existing piers with rebar and the footings will be enlarged to accommodate the new piles; permanent steel sheet piles will be placed around pier 5 to prevent erosion; erosion repair at both abutments consisting of recompacting the slopes, and installing filter fabric and rock slope protection. In order to minimize potential impacts to sensitive species and allow work during minor rain events, the work area will be enclosed within coffer dams constructed of sheet piles. No work will occur outside the coffer dams, and all construction materials and debris will be confined within the dams.	<b>NOE</b>
